COMMITMENT

Our agency is committed to continually supporting our schools, students, and community. We will serve the best we can when asked. Having a daughter in 2nd grade now and another soon to be entering Kindergarten, it is important to our family to have a great district, great support for the community; and, if I can help be an example to others, I will be.

CONTRIBUTIONS / EVENTS / SERVICES

Our agency and I both have a passion for our students and community. Honored and humbled to have been the very first recipient of the "Friend of Education" award from the Cuyahoga Falls Schools and Board of Education.

Some of our contributions:

- Over many years, I have been heavily involved in the district investing time and support.
- Over the years we've donated thousands of dollars in supplies across all schools in our district.
- I personally serve on multiple committees with the administration, high school, and on DeWitt PTO (formerly PTA) and have intentions of continuing.
- We have been part of the High School Career Fair for multiple years now helping to grow the attendance and excitement the students have when taking part.
